

# **THE TRANSITION TO RENEWABLE ENERGY IN ALBERTA HOW TO DO IT!**

**Paul Gipe**

September 22, 2010 at 7:00 pm

Alberta has tremendous clean sustainable renewable resources. Come hear how to make the transition from one who really knows. Paul Gipe is a pioneer in developing renewable energy policies all over North America. Instrumental in architecting the successful Ontario Green Energy Act. Mr. Gipe is an authority on what works and what doesn't in Canada.

**Grant MacEwan University – CN Theatre Rm 5-142**

105 St. Building 105 St. and 105 Ave., Edmonton

**Free presentation and discussion. No registration required. Free refreshments at 6:30 pm +**

Paul Gipe is a sought after speaker on renewable energy policy. In 2004, Gipe served as the acting executive director of the Ontario Sustainable Energy Association where he created, managed, and implemented a provincial campaign for Advanced Renewable Tariffs. The campaign sought to adapt electricity feed in laws to the North American market and was instrumental in placing the European concept on the political agenda in Canada and the United States. He is also the author of several books on wind energy. He has also lectured widely on wind energy and how to minimize its impact on the environment and the communities of which it is a part. For his efforts, Gipe has received numerous awards.
