

# Solar Power Your Business

**Larger systems are going in  
and installation costs are dropping.**

Calgary has an increasing number of solar projects and large commercial systems. Larger systems are going in as installation costs are dropping.

- The ROI?
- The tax benefits?
- Government Incentives?
- The electricity and marketing benefits?
- The steps to get a photovoltaic system on a business?
- How companies feel about systems after their installs?

## Presenters
